

MORTAR PROTECTION CANOPY SYSTEM - 120MM TESTED

MODULAR DESIGN FOR PORTABILITY AND QUICK DEVELOPMENT

Kontek's Modular Mortar Canopy system is custom manufactured to meet requirements for coverage and height. The mortar canopy can be used over new or existing infrastructure that needs protection from mortar fire up to and including 120 mm quick fuse mortar attacks.

FEATURES

- ▶ Live fire tested by U.S. Army Corps of Engineers (USACE) and **defeated 120mm quick fuse mortar**
- ▶ Quick **mobilization**
- ▶ Fast and easy **field assembly**
- ▶ No **permanent foundations** required
- ▶ **Bolted panel and structural support** connections
- ▶ Easily **warehoused**
- ▶ **Convenient** panel disassembly and relocation
- ▶ Fully **redeployable**
- ▶ **Modular panel** design allows size and span to meet any requirements
- ▶ **Provides protection for:**
 - New or existing troop housing facilities
 - Medical facilities
 - Goods storage (ammunition)
 - Vehicle parking (trucks, aircraft)
 - Maintenance areas
 - Custom applications
- ▶ **Cargo container kits** available
- ▶ Various **paint colors** available

Modular Design is easily configured to meet any requirement

Kontek stands ready to meet the individual needs of our customers. We will design and certify products to meet any challenge. Contact us to learn more.
